### HERDS NOT HAR BY CALF SLAUGHTER

New Production May Force Re- Many Purchases at Yards Sent Back

By JOSEPH F. PRITCHARD.

Chicago, Oct. 18.—It is expected by the best posted men in the corn trade here that there will be at least a partial reversal of conditions surrounding that grain before the month of October has passed. For many months those who have wanted corn have been obliged to acour the country in order to secure it. Prices have advanced to tevels surpassing all previous up-turns, and the corn has been absorbed because those who wanted it were obliged to met the views of holders. In order to move corn freely concessions must be granted to producers.

The South has raised the largest crop in the history of that section, and a message received on the Board of Trade says that the new corn offered at Clarksville. Tenn., at 50 cents. New No. 1 white for October shipment sold in the Chicago market at \$1.50, which is \$2 cents below the recent asking price.

Oats were 15.000 bushels and oats 420,000 bushels, of which 300,000 of the latter went to exporters.

# **BEING CONSIDERED**

Appears Likely Date Will Be Set Some Time Shortly.

HORSES AND AUTOMOBILES.
The continued growth of the automobile business has made transformations in its predecessor, the saddlery and harness business. Former livery stables in small towns are now hybrid livery stables and garages, with the livery stable feature mostly a dide issue. For the "buggy trip" routes of the traveling salesman are now all automobile trips.

So, also, the saddlery and harness alone, and aviation and the medial corrections are described by the saddlery and harness alone, and aviation and the medial corrections are the same as a society folk.

Best society folk.

Best society folk.

Best seen cantonments.

The shortage is due partly to the national army men to fill up National or fill up National to fill up National to fill up the enlisted personnel of the aviation service, the Medical Corps and the service battallons abroad. Eventually there will be \$50,000 men in the last named service.

All-Prize automobile trips.

So, also, the saddlery and harness alone, and aviation and the mediretall store has either been absorbed cal service will take nearly as many by the hardware store, or else carries a line of both saddlery and harness be taken from the national army.

Chancellor Hurwitz urged upon the members of the society the necessity of always bearing in mind the principles of the society, which he summed up in one word, "service." He called particular attention to the fact that the present international situation afforded exceptional opportunities for useful work, and expressed the hope that the Jews of this country would play an important part in upholding democracy in the world, as it was only through this form of government that the Jewish race, as well as all others, could secure equal apportunities.

The Merchants Who Are Already Doing Their Bit Saving Delivery Costs to Their Patrons

The Government has called upon the Merchants of the country to conomize in their deliveries and save, through this economy. Man-power, tachines, Gasoline, Rubber, Etc., all of which are vital necessities in the rosecution of the war.

The Joint Committee of Consumers has asked us to make this saving h their co-operation in the carrying of packages, and request that e allowed a discount equivalent to the saving in the cost of As Merchants herein represented we wish to call attention to the fact that we are now complying with the request of the Government by co-operating in their delivery through a Clearing-house system.

We are also complying with the request of the Joint Committee of Consumers, as they are now receiving the full benefit of the saving in the cost of delivery through the prices quoted on merchandise which we handle, and they also have the advantage of a satisfactory delivery

We are able to maintain our delivery service at a cost of approximately one-half of one per cent as against private delivery services costing the consumer from two to four per cent on total sales, as estimated by the Council of National Defense.

We are doing a patriotic duty and at the same time giving our patrons the advantage of the saving effected, and if we were to go even further and give them the actual cost of delivery as a rebate the amount saved would be too negligible to estimate.
